### BLOUSES IN WIDE VARIETY

Wash Fabrics Figure Prominently Among Materials Employed—Pendant Decorations Highly Favored.

The shops are really affording in their display of overblouses in fabrics and styles suitable for summer wear. It is perhaps an interesting thing that wash fabrics have been made to serve so admirably for these blouses—for there was a time when it seemed that only chiffon and georgette and soft crepe would do for them.

But now linen, organdie, batiste, ratine—lots of ratine, too, which is another of those interesting evidences of a return to favor of a fabric or style that has seemingly gone by—all these and other summer fabrics, heavy, homespun, crashlike-looking things, are used for the overblouse.

One thing that marks many of the blouses is little tassels and hanging buttons and fringe. There are all sorts of these pendant decorations, from sleeve ends and hems and just hanging down from any other part of the blouse itself.

### Directoire Dress.

A beautiful directoire dress is made of black taffetas with superb jet embroidery on the hem; there is a large directoire collar, high up under the chin, made of white organdie and caught in by a black taffetas ribbon, and a cabriolet hat of bright green Japanese straw trimmed with a little wreath of blue hyacinths and jet ivy leaves. The dress is split up at the side—very high indeed—over a plaited underdress of fine black lace. The parasol, carried with it, is of bright green muslin, with an ebony stick and a carved ivory handle.

Mining blanks—Courier office.

### Joy of Tournament Golf.

Wouldn't it make you mad if you were entered in a golf tournament and you started out shooting the little old pill down the line, better than you ever had and finished the first nine holes in the lowest score you had ever made; slipped a little on the second nine, but still had a chance to make a respectable showing, and then on the eighteen hole in the presence of an admiring throng of friends you proceeded to put the pill into the ditch three times and take eleven strokes where five should have been plenty? Wouldn't it make you mad?

Well, the only consolation we know out of that horrible catastrophe is that we remembered even in our rage that there were ladies within hearing distance. We came up, smiling out of the ditch, but we sincerely hope the young woman in the pink gown and the big hat who grinned gleefully at us is no mind reader.—Exchange.

### Just So.

## BARGAINS

BIG BARGAINS, SNAPS, BIG SNAPS  
You Can't Afford to Miss

Here is what you have been looking for. Having no salesmen to pay commissions to we can save you from \$50 to \$100 on a car. Come see our used cars. Yours for service

### COLLINS AUTO COMPANY

511 H Street Phone 317

You have had crop failures owing to lack of rain. Crops may suffer again this year. Farming is more or less of a lottery anyway, and "Water under the clouds" lessens the chances of winning.

You can make farming practically sure, by artificial irrigation. Electric pumps put moisture at your command in just the right quantity at just the right time. But, in order to be profitable, artificial irrigation must be cheap. And the cheapest method of artificial irrigation known is that obtained by Electric Motor Driven Pumps. This is particularly true when Electric Power is obtainable at low cost.

Let us help you forestall losses from drought. We will give you our best advice in the selection of motors, and we will furnish you power at the lowest cost.

## Help Reduce the High Cost of Living

### WE NEED MORE CREAM TO MAKE MORE BUTTER

We are now manufacturing approximately 9,000 POUNDS of butter per week in Southern Oregon which is not enough to supply the wants of our large established trade, and we are therefore obliged to SHIP BUTTER IN from the outside, while many cream producers are favoring outside concerns by SHIPPING CREAM OUT which should be made into butter here and the butter sold here.

## Increase the Speed

Of the Southern Oregon Wheels of Progress by consistently Patronizing your REAL HOME INSTITUTIONS in the sale and purchase of all of your products, and by the elimination of duplication of effort and expense in the handling of these products, aid in the reduction of the HIGH COST OF LIVING. Every pound of CREAM OR BUTTER shipped out of this territory or BUTTER shipped into this territory which should legitimately be manufactured and handled here, adds to the higher cost of the product produced.

## Highest Prices Paid

by the

# Jackson County Creamery

Operating Creameries at Applegate and Medford, Oregon.

Not a branch of any Northern Interest, But a REAL HOME INSTITUTION

### Do You Want to Save Some Money?

Re-insulating a battery is about the most expensive repair there is. And there's only one kind of battery in general use that isn't practically certain to be re-insulated—or junked—within the next year or two.

That one exception is the Willard Battery with Threaded Rubber Insulation. Come in and we'll tell you why.
